Please join us in the 2019 National Night out... Help us keep a good thing going and help us beat the record!

The tale of the empty chair

The day was Sunday, July 14, 2019. Breakfast was over and noon was considerably behind me. It was past dinner time – you know dinner time is not 6 p.m. in Stone Arabia. Where should I go for dinner? I know I'll bring back memories at Saltsman's in Ephratah. Mother's Day was special there when my wife Ethel was still with us. The grandchildren were young then. Upon arrival one of them would reach into the coin return slot of the pay telephone to see if coins had been forgotten. I remember for a moment that Ethel has been gone since 2006 and those grandchildren are all grown up and married. So I arrive at this old famous hotel at Saltsman's alone. Tammy greeted me as always. She and Jim have been owners and preservers of the place's famous heritage for many years. It is time for Tammy to take me to a table. I'm seated across from an empty chair.

My order is taken. It is always the same: chicken soup, fritters just like the ones Aunt Mary made for me when I was a small boy (but not quite like the ones shaped like little people she made special), and steak. My favorite dish arrived. You know, the one I called "scalped onions." That is not the correct name but I once thought it was. When that dish came I closed my eyes and for a moment the empty chair was no longer empty. Ethel, who had made that favorite dish so many times, was there. Surrounding the table were so many Ephratah friends from long ago. The Christmans and Dueslers were there, along with my special friends Curt and Helen Nellis. I know I have forgotten some but please forgive me. Across the room at that big table my family, yet not grown up, were enjoying their meals. I've stepped back many years but my dream must end. My eyes open and I'm again at July 14, 2019. I snap back to the present at a special place – Saltsman's Hotel in Ephratah.

Canajoharie set to celebrate with Street Fair on Sept. 14

by Courtney Llewellyn

CANAJOHARIE – Autumn is a busy time for many people, between farmers working on their harvests, children going back to school and much of New York taking the time to appreciate fall foliage while simultaneously beginning preparations for winter. What better way to take a moment for yourself, your family and your friends than to attend the first ever Canajoharie Street Fair?

On Saturday, Sept. 14, everyone is invited to enjoy a parade, a car show featuring hot rods and classics, a display of antique tractors and, at the end of the day, a brilliant fireworks display at the fair. Also included will be a "wing walk," during which attendees can visit the different restaurants in town to sample their best chicken wings!

"We are going to be recreating a community get-together that seem to have gone away in most communities," said Bruce Button, one of the Street Fair's organizers. Button is vice president and general manager of Lee Newspapers, the publisher of Country Editor. The newspaper and company are sponsoring this first ever affair, aiming to make it an annual event. "This event is a great way to celebrate the village of Canajoharie and all the people that make it special, as well as draw people in from surrounding towns and villages that haven't visited in a while."

Organizers of the events are still seeking groups to create floats and participate in the parade, including fire departments, Sunday Schools, youth groups, sports teams, coaches, dance teams, clubs, military organizations, civic groups and businesses.

The parade will begin at 1:30 p.m. on Mohawk Street, proceed to the dummy light, then head north on Church Street to Erie Boulevard and back to Mohawk Street.

In addition to parade participants, the Street Fair is seeking local vendors and sponsors to make this an event to remember. Vendors, come show off your wares, and visitors, come support your neighbors and start your holiday shopping early.

Applications and more information is available for vendors, classic cars and hot rods, antique tractors and for parade involvement. Contact Bruce Button at 518.673.0104 or Janet Stanley at 518.673.0292 or email streetfaircanjo@gmail.com for information or applications.

Keep kids safe when mowing the lawn

Warm weather beckons many people outdoors. Perhaps no group of people like being out in the warm sun more than children.

Children should be encouraged to spend time outdoors when the weather allows, as physical activity is one of the hallmarks of a healthy lifestyle. But parents must exercise caution when kids are playing in the yard, especially when the grass is being mowed.

According to the American Academy of Pediatrics, more than 9,000 children in the United States go to the emergency room for lawn mower-related injuries every year. Of the 800 children who are run over by mowers each year, 600 ultimately require amputations.

Many mower-related injuries occur when children who are too young and/or too weak to operate a mower are asked to do so. The AAP recommends that only children age 12 and older operate push mowers, while riding mowers should only be used by kids 16 and older. No child should use a mower without first being taught how to operate it, and kids should always wear eye protection and close-toed shoes when mowing. In addition, parents should never allow children to ride as passengers while mowing the lawn.

Mower-related injuries are preventable if parents emphasize safety. The following are some tips, courtesy of the AAP, that parents can follow to ensure their kids do not become one of the thousands of children who suffer mower-related injuries in a given year.

- Only use a mower with a control that stops the mower blade from moving if the handle is let go.
- Keep children out of the yard while mowing. Mower blades can shoot rocks, sticks or other common yard debris out in all directions, and these trajectories put kids at risk of injuries to their eyes and other parts of their bodies.
- Scour the yard for toys before mowing. Toys left in the yard can become trajectories if not removed prior to mowing, and chipped toys with sharp edges can pose a threat to kids even after the grass has been cut.
- Exercise caution if going in reverse. The AAP advises against pulling a mower backward or shifting into reverse unless absolutely necessary. If you must do so, look behind you to make sure no kids are trailing you or are nearby.
- Only mow when there is adequate daylight.
- Periodically inspect your mower. Periodic inspections of your mower can help you make sure guards, shields, switches and other safety devices are in proper working order.

Whatchamacallits

In the Gazetteer and Business Directory of Montgomery and Fulton Counties 1869-1870, the Young Warrior Mower is described as a "perfectly reliable first class mower."

The originators of the mower, Bramer & Pierce, moved the manufacturing from Fabius, NY, in Onondaga County to Little Falls in January 1869. During the previous fall season, a demonstration of the mower was performed at Little Falls, after which a group of prominent business owners convinced the pair to manufacture the machine there. They raised a significant amount of capital and incorporated the stock company known as the Warrior Mower Company.

"The establishment is on the south side of the river adjoining the tow path of the Erie Canal. The principal building is of brick and stone, 80 feet by 40, four stories high, with an excellent water power."

According to the Gazetteer, the Warrior Mower Company employed 40 men – not counting the furnace men who did the castings – and produced 600 mowers the first year.

15 Miles On the Erie Canal - Talk & Paddle Series

The Arkell Museum and Canajoharie Library, Down by the River Kayak Rentals and Schoharie Crossing State Historic Site teamed up this summer to present 15 Miles on the Erie Canal. Throughout July and August they offered a five part series that includes a talk and a 3-mile paddle. With just two dates left, be sure to sign up for this free event.

- Thursday, Aug. 8 - South Amsterdam - Down by the River Kayak Rentals - Transportation with surprise guest!

- Thursday, Aug. 15 - St. Johnsville - Marina - Environment with George Steele

Down by the River Kayak Rentals has 10 kayaks available to reserve or you can BYOK (Bring Your Own Kayak)!

Registration is required for the event. For more information on locations and to register please visit Down By the River Kayak Rentals at www.downbytheriverkayakrentals.com.

For more information on the program contact Mary

Summer time grilling tips

Montgomery County Public Health would like to ensure everyone is grilling safely this summer. A few helpful tips include:

- Always wash your hands and forearms with soap and warm water for at least 20 seconds before and after handling food.
- When marinating foods, keep them in the refrigerator. If reusing the sauce that was used to marinate the raw meat or poultry, boil it before applying to cooked food.
- When grilling, preheat the coals for at least 20 - 30 minutes.
- If partially cooking food in the microwave, oven or stove to reduce

grilling time, do it immediately before placing the food on the grill.

- True or false: A color change in the juice from the meat from red to gray is a reliable test to assure the meat is safe to eat? FALSE. Always use a food thermometer to confirm the meat is cooked to a safe internal temperature that will kill any existing harmful bacteria. What is a "safe" temperature?

Hamburgers: 160° F
Hot dogs: 140° F
Roasts/Steaks medium rare: 145° F
Roasts/Steaks medium: 160° F
Roasts/Steaks well done: 170° F

Poultry: 165 - 170° F

- Never place cooked food on a plate that previously held raw food.
 - Use one cutting board for raw meat, poultry and seafood and another one for fresh fruits and vegetables. If not possible, wash the cutting board thoroughly with soap and hot water between uses.
 - Leftovers can be kept at room temperature for a maximum of two hours or one hour if the temperature is above 90° F.
- For more information on food bacteria and food safety go to www.fightbac.org or www.foodsafety.gov.

Accepts Obituaries Now.

With the drastic decrease in the readership of daily newspapers in the market along with their expensive cost, many people forego putting in obituaries for their loved ones, or go with very limited information.

The Mohawk Valley Country Editor is mailed to every home in Western Montgomery County. That is over 9,000 homes! The local daily only reaches 3,000!

As far as rates go, an obituary the size of this notice is \$117.00. We have other sizes available also, for example an announcement that is 3.25" w x 5" h is \$60.00.

Fort Plain racer ready to rev up at Unadilla

by Courtney Llewellyn

FORT PLAIN – Spencer Mang, 20, is working toward fulfilling a dream he's had since he was 4 – a significant portion of his life. His aim is to race at the Pro National MX Weekend in Unadilla. And he's close to achieving that goal.

"My dad raced motocross in the nineties, and I started when I was 4," Mang said. He competed in the various youth age groups as he was growing up, traveling around the Northeast to climb on his motocross bike to race around dirt tracks. He won his first local championship at age 11. In 2015 he raced in his first Loretta Lynn MX Amateur competition and

his speed and agility led to him being listed in the top 40 racers in the country.

Country music may be the first thing that comes to mind when the name

Loretta Lynn comes up, but Loretta Lynn MX (Motocross) is also a highly respected name in the world of amateur motocross, "as well as being

they've got," according to their website. Their annual Amateur Motocross Championship "draws the attention of the most

important motocross sponsors looking for new talent and thousands attempt to qualify for Loretta's each year." Mang has also competed within the Central New

York Motocross Riders Association.

"I like the sport because it's all me," he said. "I like the independent aspect of it." He made sure to note he has a great group of sponsors supporting him on his journey, stating, "We support them, they support us."

He started the process in 2018 to get his pro license, which involved earning 60 pro-am points in an 18-month period. Now that he has it, his next major goal is to "make the gate" at Unadilla – competing with professional riders rather than amateur riders.

"Unadilla has nationally-recognized tracks for pros and amateurs," Mang explained. "I've been watching races there for so long, and now I get the chance to do it. It's a childhood dream coming true. I can't wait for my friends and family to cheer me on."

And after his racing career is over? Mang said he plans to head back to college with an eye on becoming a physical therapist.

The Unadilla Pro National MX Weekend starts Friday, Aug. 9 at the courses located in New Berlin, NY.

Now Here's a Tip

by JoAnn Derson

- To test the seals on your refrigerator and freezer, close a piece of paper in the door. If you can pull it out easily, it's likely that your seal is loose. Clean or replace door gaskets for a better seal.

- To clean the microwave, try adding the juice of half a lemon to a cup of water and setting to boil (four minutes) in the microwave. Let the steam circulate for an additional four minutes, then remove the cup and wipe down all sides of interior. Use the cut lemon to clean a wooden cutting board. Sprinkle with salt and scrub, then rinse and dry.

- Use a seam ripper, meant for sewing, to remove hair that is wrapped around the beater bar of your vacuum.

- "To keep plywood or thin materials from splitting, I tape my cut line with low-tack masking tape. It keeps my cut sharp, reduces the fraying and it's easy to remove when I'm done." — G.S. in Minnesota

- "Old flowerpots can be brought back to new life with a good scrub, a coat of paint and a healthy dose of sealant. This works especially well on pots with some detailing. The new paint and seal really bring out the decoration, and you can make a group of mishmash pots have a cohesive look." — M.W. in Oregon

- Packing small jewelry for a trip? Consider using a pill minder — the plastic storage bins with seven days or more that are used to organize medicine. These work very well.
