Pennysaver
The Little Paper with **BIG** Results

Serving the Homes of the Mohawk Valley

Volume 4 • Number 7

So we say with confidence, "The Lord is my helper; I will not be afraid. What can mere mortals do to me?" Hebrews 13:6

Sarah LaComb is all smiles after winning Miss Congeniality at the Miss Fonda Fair Pageant for her kindness toward others. Nine-year-old Sarah is the daughter of Dave and Donna LaComb of Fort Plain.

Photo by Donna LaComb

Why Buy Local?

Support yourself

When you buy from an independent, locally owned business, significantly more of your money is used to make purchases from other local businesses, service providers and farms -- continuing to strengthen the economic base of the community.

Create more good jobs

Small local businesses are the largest employer nationally and in our community, provide the most jobs to residents.

Get better service

Local businesses often hire people with a better understanding of the products they are selling and take more time to get to know customers.

Invest in community

Local businesses are owned by people who live in this community, are less likely to leave, and are more invested in the community's future.

Put your taxes to good use

Local businesses in town centers require comparatively little infrastructure investment and make more efficient use of public services.

The Original Valley Pennysaver is delivered to 100 percent of the homes in the following towns:

August 31, 2013

Hello Again,

Have you any idea what we should chat about this week? Bet you didn't know – birthdays are good for you. Those who have the most, live the longest.

And something else: Ponce De Leon's aim in life was to find the fountain of youth. Instead he found Florida – the retirement garden. Next time you visit Florida, note the large number of seniors walking, swimming and riding their bikes – maybe ol' Ponce found what he was looking for and didn't know it. Could be he was just like me – when he got back home, he couldn't remember what it was that he found.

Getting old is not so bad. Something bad can happen on Monday and you won't be able to remember it on Tuesday. Strange though – if someone owes you a few bucks, you will never forget it and the borrower won't seem to be able to remember. I've heard old age brings on convenient hearing. They say we can hear what we shouldn't. Do you suppose old age memory, as far as money is concerned, travels the same path? The lender remembers an amount higher than it was while the borrower will only remember a lesser amount, or can't remember it at all.

Prepare and eat sweet corn the new fashion way – with the husk on, place two ears of sweet corn in the microwave for 3-4 minutes. Be careful, the husk will be very hot. Place one hot ear on your dinner plate and

carefully peel the hot husk down to the base. Leave the husk attached and use it as a handle. Next, take a small baggy with butter on it – not in it. Wear the baggy as a buttered glove

and rub the butter on the corn. Salt to taste and you're ready for a treat! It will take only 5-6 minutes.

The Grande Mariner – one of the largest canalers paying a passing visit on the Mohawk River. Oh, Mariner, where have you been – where are you going? "I'm just passing by. Wish I could stop for a visit but I've things to do."

"Just passing through." Should this become our ballad? Trains, canal boats – NY State Thruway – are we of the Mohawk Valley the waving picture takers of the world of people just passing through? Let's create a fantastic drawing card here in our Palatine Corridor, businesses which will attract people from far and wide. Everyone knows about the melting pot of gold at the end of the rainbow – where is it? Wouldn't the Palatine Corridor be as good of a place as anywhere else? We can make it happen. Did you mail your letter yet, saying yes I will be there?

A sit for a while with a folding chair or on an old tree stump along the Mohawk will serve as a restful tonic. Your eyes will see and your ears will hear nature's natural beauty while God will speak to your heart.

Is success measured in the way we think of it? Just imagine, if your pet dog Fido was lying in the doorway of your dining room on Thanksgiving Day, watching everyone overstuffing on turkey, mashed potatoes, yams, giblet gravy, and all the other fixin's while moaning and groaning – patting their too full bellies saying "Oh – I ate too much," then adding to the misery with pumpkin pie –

what would poor Fido think? Here I am, only a dog and fed only dog food and water. No turkey for me. Or would he be thankful and think, "Today I'm glad I'm not a turkey."

No problem can withstand the assault of sustained thinking.

Page A19 of Investor's Business Daily dated August 19, 2013 was headed by these words: "Read what's really going on in the country" with two single column heads, "Obama needs to speak truth about Egypt" and "Obama history of economy is a fairy tale." Now my big question: Isn't it about time that we U.S. Citizens stop participating in this – Democrat/Republican slamming and start supporting issues in the best interest of this country?

The actual economy shows real GDP falling well below 2 percent. This so-called recovery remains the worst in modern history dating back to 1947.

And as far as solutions go, Obama keeps giving us the same old, same old: End the spending-cut sequester, lower tax deductions and raise taxes on the rich – all to free up money for infrastructure, green energy, 'manufacturing innovation initiatives' and the teacher of unions.

Of course, this would all come on top of ObamaCare, which, if it doesn't fall of its weight, will add so many new taxes, regulations and mandates that it will sink the economy more.

How about a new heading: So-called recovery worst since 1947.

My second question – why are we sticking our nose into Egypt's and Syria's problems? Shouldn't we spend all of our effort and money trying to fix our own country? Are we not the United States of America and merely one member of the United Nations and not the lord and master of the

entire world? England tried to be and ended up nearly broke. The Soviet Union tried to own and control most of Europe and went belly up. Are we next?

The one thing experience will teach is change will happen even if we do not plan for it to happen. In Ireland, my grandfather was a dairy and horse farmer. In this country, my Dad grew a large garden and I have an electric can opener. Is that evolution or change?

Some changes seem to change back to the way it was years ago. For example, now several of our Amish farmers have large teams of horses and mules – not tractors. What is a mule? – First of all, a mule is the offspring of a male jackass (its biblical name) and a female (mare) horse. A hinny is the offspring of a female jackass (a Jenny) and a male horse (a stallion.) And a jackass – like all jackasses, remains a jackass. See – some things do change while others don't.

Now when you see the little red Spyder three-wheeled motorcycle (a trike) passing by, it can't wave hello – but if I see you, I will try.

Often in life, something can seem missing. Could it be a relationship with our Heavenly Father? You say you've tried everything else, why not give God a chance by attending church.

God bless you, your family, friends, and our beautiful country. Our country does not need a change but continuous TLC to keep it in the harness it was born to fill.

Fred Lee and Family

P.S. Don't forget to send in your "Yes, I will attend" notes to confirm your interest in a meeting to discuss the Palatine Corridor. Mail to: Palatine Corridor, P.O. Box 121, Palatine Bridge, New York 13428

HERE IS A PLEASANT LITTLE GAME that will give you a message every day. It's a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner and check one of your key numbers, left to right. Then read the message the letters under the checked figures give you.

St Johnsville's 63rd Firemen's Fair credited to volunteers

by Elizabeth A. Tomlin

Glorious weather provided a perfect background for the 2013 St. Johnsville's Firemen's Fair.

"This is our primary fundraiser for the department," stated Chief Tom Malley. "Money from this supplements what the village budget doesn't cover."

The funds go toward buying equipment and helps to fund the dive team.

Malley has been the Fire chief at St. Johnsville for 3 years and has been in fire service for 20 years.

Malley pointed out that even members from other local fire companies help out at the carnival and bring in their trucks to show at

St. Johnsville Fire Dept. Ladies Auxiliary President Kathy Sanders, seen here with Chief Malley, ran the fried dough booth at the annual event.

Volunteers from Team Burky included (from left) St. Johnsville fireman Jeff Swartz, Fort Plain Fireman Brian Burkhart, and Canajoharie Dept. representatives John Snyder, Jena Coppernoll and Gail Coppernoll.

5 year-old Avada Roos of Palatine Bridge takes a ride on the carousel at the 63rd St. Johnsville's Firemen's Fair.

Photos by Elizabeth A. Tomlin
Tuesday night's fire truck show. Most of the companies who were attending were from Montgomery and Fulton counties.

Members of the visiting companies helped out in the kitchen and at various other duties.

The success of the event is credited to the many volunteers who help out.

One example is the St. Johnsville's girl's soccer team.

"At lunch time Coach Zale Benton brings the girl's soccer team down from the school to wait on customers," reported St. Johnsville fireman Terry Potoczny. "They have been doing this for years!"

"This is our 63rd year for the carnival," stated 1st Assistant Chief Chris Weaver, "and if it wasn't for the volunteers, it would be really tough to put it on."

"We'd really like to say thank you to the all of the community volunteers for supporting us and helping us to put this whole thing on, from food booths to games!" said Potoczny.

Second annual CYC Boiling Pot 5K raises money and spirits in Canajoharie

by Elizabeth A. Tomlin

Cheers and laughter filled the streets of Canajoharie on the evening of Friday, Aug. 16. The 2nd annual Canajoharie Youth Center's Boiling Pot 5K was under way!

With over 100 competitors in the main race and about 50 children in the children's division, balloons, spectators, raffles and a live band, the activity level was at an all time high.

"This is an amazing event for our village!" stated CYC Director Dontay Fowler. "And I am so happy to be a part of it!"

Fowler pointed out that the event had taken many months to plan and that without the help of the volunteers and sponsors, the event would never have taken place.

"We would like to thank everyone who made

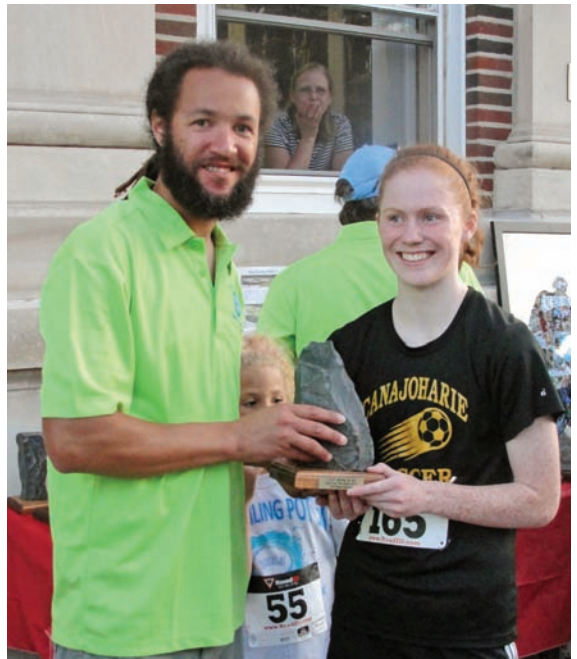

They're off! The children's division competes in the race.

Photos by Elizabeth A. Tomlin
our event possible!"

Proceeds from this event help to support the Canajoharie Youth Center.

(From left) Canajoharie's Alex Hayes, 3rd in the Men's 19 & under (21:06), visits with 1st place overall winner Ben Taber (18:18) of Portland, OR, after running the 2nd annual CYC Boiling Pot 5K race in Canajoharie.

1st place winner of the ladies ages 19 & under, Christina Towse (26:26), receives her trophy from CYC Director Dontay Fowler, following the CYC Boiling Pot 5-K.

Vol. 30
Issue: 1
September 2013

For photos and more information, please visit our website at www.fortplain.org

~Board of Education 2013-2014: The Board of Education, at their July reorganizational meeting, unanimously elected Mary Beth Hudyncia as Board President for the 2013-2014 year. Jami L. Stevens was named as 1st Vice President, with Ronald Kardash serving as 2nd Vice President. The Board also named its meeting schedule: meetings will be held on the second and fourth Wednesday of each month. Board of Education meetings are held in the district conference room at the Harry Hoag School, unless otherwise specified. The district calendar lists dates and times of the meetings.

~Shared Director of Special Education Named: The Fort Plain Central School and the Canajoharie Central School have announced the hiring of Mr. Ted Arndt as shared Director of Special Education. Mr. Arndt will split his time between the two districts, as they both had a need to fill. After 12 years of teaching special education at Fort Plain, Mr. Arndt looks forward to managing the special education programs and working to be sure that all students receive the services that they need. "In this position, I won't have the direct instruction with the kids, but I feel I will have a greater influence over a number of kids," he said. Noting that "the faculties in both districts have a lot to offer," Mr. Arndt will be working hard to provide teachers with an even better forum to do what they do best.

~A Wrap-Up of 2013: The 2012-2013 school year ended with several events and celebrations:

****A special graduation ceremony** saw the Class of 2013 embark on a whole new adventure. 62 graduates recalled their years at Fort Plain and expressed their thanks to the families, teachers, staff, and friends who made their school years so very special. Valedictorian Timothy Wolfe offered advice in his remarks to the crowd, fondly recalling the words of his fifth grade social teacher Barry Kahn, "Good choices, good consequences; bad choices, bad consequences." Salutatorian Jocelyn Arndt performed a song that she wrote called "Lucky Thirteen." The class gave special recognition to their advisors, Margaret DiBiase and Patti Jarabek before receiving their diplomas, moving their tassels and heading out to face the world.

****June Students of the Month at the Jr/Sr High School were:** Sean Staples, Isaiah Cechnicki, Edward Rolle, ShyAnn Snyder, Simeon Sammons, and Chris Kilmartin. *Congratulations to all!*

****The 2013 Fort Plain High School yearbook, Portrait,** was dedicated to science teacher Jay Jarabek. The Class of 2013 chose Mr. Jarabek because he "has taught us valuable life lessons and is always happy to help students achieve success," said yearbook editor Danyel King. Other faculty members receiving special recognition at the ceremony were: Barry Kahn, Louise Clute, William Ryan, Lisa Petty, Patty Sweet, Margaret DiBiase and Patty Jarabek.

****National Honor Society Induction:** Advisor Denise Smith, Principal Deborah Larrabee, and the senior officers of the National Honor Society were proud to induct 11 new members to the ranks on June 1st. The National Honor Society commends students for their academic achievement, along with their display of character, leadership, and community service. The new National Honor Society members inducted were: Christian Arndt, Joshua Cechnicki, Lindsay Countryman, Alexis Haponski, Kasey Mang, Jesse Nestler, LeRoy Nestler III, Ryan Potter, Eugene Ryan, Simeon Sammons, and David Wilday.

****Several of the classes held elections for class officers at the end of the school year.** The following results were announced. Class of 2014: Christian Arndt - President, Simeon Sammons - Vice President, Kasie Hext - Secretary, Jesse Nestler - Treasurer, Josh Cechnicki - Representative, Lindsay Countryman - Representative, Alexis Haponski - Representative, Jillian Palmer - Representative. Class of 2015: Liza Hundyncia - President, Briannah Florian - Vice President, Julia Rodriguez - Secretary, Kiernan Briggs - Treasurer, Aiden VanLoan - Representative, ShyAnn Snyder - Representative, Daisha Bates - Representative, Tyler Marsh - Representative. Class of 2017: Jon Payack - President, Lexus Richtmyer - Vice President, Anganese Gomez - Secretary, Zoe D'Arcangelis - Treasurer, Lexi Veitch - Representative, Julia Stockwell - Representative, Nate Florian - Representative.

The 2013 Lions Club Ramble (2 mile race) was won by Fort Plain High School's Jordan Ahrens and Emily Potter. Caitlyn Porter finished first in her age group. Sarah Hoffman also placed and won a medal. Congratulations to these Fort Plain athletes!

BlueShield
of Northeastern New York

~BlueShield Scholars Announced: BlueShield of Northeastern New York is proud to honor Jocelyn Arndt as the Fort Plain Central School recipient of the 2013 BlueShield Scholars Award, a program that rewards area high school seniors pursuing higher education in the field of health or human services. Jocelyn is one of 110 high school seniors who have been selected this year. All recipients were selected based on their academic performance and demonstration of BlueShield's core values of respect, personal responsibility, excellence, teamwork, passion and integrity. Each winner receives a \$250 scholarship towards his or her continuing education, a certificate of recognition, and a profile published in the Business Review's 2013 Schools Report.

~LifeSkills Class Receives Wal-Mart Grants: The Fort Plain High School's Life Skills class was recently awarded a \$2500 grant for their "Interviewing Skills: Preparing for Life" program. The program focuses on career readiness and job skills. Students learn interview skills and the best ways to present themselves. They will do practice interviews, which are taped so that the students can watch them and self-critique. The program also teaches resume building and other career readiness skills. The grant will be used to purchase audio-visual equipment to assist with these important lessons. The class also received a \$1000 grant to be used for their "Cooking for Life!" program. This program features healthy cooking, menu planning, and lessons on how to create an appropriate and cost-effective shopping list. Simple recipes are taught, along with healthy food prep, and food safety techniques. The Wal-Mart grant will be used to purchase a juicer, waffle maker, electric griddle, various pans, utensils and other kitchen equipment. "We are very thankful for the Wal-Mart grants so we can have these important extras in the classroom for the students," said Life Skills teacher Lisa Petty. "This will help us enhance our programs."

~Parent Volunteers Needed: The district is in need of volunteers to serve as parent members to the Fort Plain Central School District's Committee on Special Education and Committee on Preschool Special Education. If you have a day to volunteer, once a month or even less, please think about serving as a parent member of one these committees. If interested, contact the office of special education at 993-4000.

~Student Attendance and Sign-Out Information: Parents are reminded to send in an excuse each time your child is absent. The note should include the date of the absence, the reason for the absence, and a parent signature. If your child is absent from school for two (2) days or more, you may call to request homework assignments. These phone calls should be made first thing in the morning, to allow teachers time to gather materials for the end of the day. Students arriving late (overslept, doctor's appointment, etc) must report to Mrs. Thomas or Mrs. Congdon at the reception window. They should have a written excuse with them as to the reason for being tardy. If you will need to pick your child up during the school day, please notify the school ahead of time - in writing. You will be asked to sign your student out at the reception window and wait while your child is called down to meet you. Any questions about attendance procedure can be addressed by calling the main office of either building at 993-4000.

Student Drop-Off Reminders: Parents driving their children to school are asked to avoid the bus loops prior to and at the end of the school day. Jr/Sr High School students should be dropped off either at the bottom of the steps on West Street or in the parking lot adjacent to the gymnasium. At the Harry Hoag School, students may be dropped off only in the front parking lot, inner loop. For reasons of security and safety, do not drop your child off at the side or in back of the school.

~Make Homework Time More Productive: The beginning of a new school year is the perfect time to create positive homework habits. Try some of these ideas: 1) Set homework goals. At the beginning of each homework session, ask your child, "What do you need to do today?" This simple question will help your child get focused on the task ahead. 2) Get comfortable. Some kids need absolute quiet to study. Others can tolerate lots of noise. Some need to sit at a desk. Others work best while sprawled on the floor. There is no "right" or "wrong" way. Let your child experiment and find what works best. 3) Set a schedule. For most kids, homework time should average about 10 minutes per grade (20 min for second grade, 40 min for fourth grade). If they don't have that much homework, they should use the time to read for pleasure, review, or work on an independent project. 4) Do a five minute check. At the end of each homework session, have your child get in the habit of checking homework. Is his/her name on each paper? Has the essay been proofread? Are all the papers in the backpack and ready to return to school? All of these tips will help homework time to be more productive time.

~Fall Footwear Safety: There are many types of footwear that appear to be safe, but are a cause for concern for our students during recess and physical education classes. In order to protect our students, we ask families to cooperate with the following footwear guidelines: 1) sturdy footwear must be worn and fastened securely at all times 2) all footwear must be mostly flat and have a hard sole. 3) sneakers and shoes must cover the toes and heels at the same time 4) if sandals are worn to school, they must be mostly flat and have a heel strap that is securely fastened 5) shoes with wheels or roller blades/skates cannot be worn on school property 6) during PE class only sturdy sneakers are to be worn - no boots, UGGs, clogs, crocs, sandals, flip flops, high-heeled shoes can be work for PE.

~Disclosure of Annual Professional Performance Review (APPR) Data: Upon request, the Fort Plain School District shall release to parents/legal guardians the final quality ratings and composite effectiveness scores for teachers and principals to which their child is currently assigned. Parents/legal guardians may contact the building principal to set up an appointment to receive, in person, the final quality ratings and composite effectiveness scores for their child's designated teacher(s) and principal. In accordance with law, prior to the release of any data, school officials shall make reasonable efforts to verify that any request to receive such data is a bona fide request by a parent/guardian entitled to review the data. At the appointment to receive the information in person, parents/legal guardians may be asked to produce photo identification to verify their relationship to the student. With the disclosure of scores, parents/legal guardians may also request an oral or written explanation of the composite effectiveness scoring ranges for final quality ratings, and be offered opportunities to understand such scores in the context of teacher evaluation and student performance. The district may distribute a written summary that explains the composite scores and designates the ranges for Highly Effective, Effective, Developing, and Ineffective ratings. The district may also refer parents to the APPR plan, located on the district's website. Annual performance reviews of individual teachers and principals shall not be subject to disclosure under the Freedom of Information Law (FOIL).

Whatchamacallits

The typical straight razor shaving kit is often a piece of family history. Since the equipment is more lasting than today's disposable razor, grandpa's shaving kit will last much longer.

The straight razor first came on scene in Sheffield, England in 1680.

There are three types of points that straight razor could be forged with. The 'round point' is the easiest to use, often given to beginners, but is less accurate. 'Square' or 'sharp point' edges come to a point at the tip and are for small, difficult to reach areas. 'French' point has a sharper, angled curve at the point and is similar in use to a 'square point.' The blade pictured here is a 'square point'

razor.

## Inside Sales Consultant

*Please apply now for our sales opportunity.*

**Be Challenged, Be Rewarded, Be Confident  
Of Your Career Choice**

Are you a high energy self-starter who is motivated to succeed? Are you interested in partnering with businesses nationwide to provide cost effective and timely solutions for their marketing and advertising needs? Are you interested in joining a company with a world-class reputation and competitive compensation? Then the Lee Publications is the place for you.

We continue to build on our 46-year legacy of providing quality products and superior service to the commercial horticultural, general agricultural, heavy construction, aggregate and solid waste recycling industries. Lee Publications is committed to recruiting, hiring and retaining talented people as our Corporate Account Managers to help us achieve our goals. When you join us you'll become part of an innovative culture that helps our customers grow and prosper. We are dedicated to ensuring employees have the resources needed to care for themselves and their families. Our culture, our environment, our services and products, and most of all, our people, make this a great place to work.

### What's In It for You?

Competitive compensation: base salary with unlimited commission and an established, customer base. Diverse industries served and numerous products to offer.

Solid account file with unlimited potential prospects. Training Program  
401(k)

Friendly work environment

### What We Want :

Passion for selling and building relationships  
Marketing experience or interest preferred, but not mandatory

Demonstrates enthusiasm, an entrepreneurial spirit, and high degree of ownership and accountability for achieving results

Ability to quickly learn new information and adapt to a changing industry

Excellent verbal and written communication skills

Ability to organize, multi-task and prioritize opportunities

Occasion travel to trade shows

Digitally savvy; proficiency with MS Office and the Internet as a research and sales tool

### What to do Next:

If you think you have what it takes, please follow these steps:

In your cover letter:

- o Tell us something significant about yourself that we cannot read in your resume.
- o Tell us what most attracts you to this position.
- o Tell us what qualities or characteristics that you possess that would make you successful in this position.

**Send your resume by email to  
bbutton@leepub.com**

# Ayres Animal Shelter

133 Hilltop Rd., Sprakers • 518-673-5670

Hours: Tues-Sat 12-5 • Open Wed. Nites till 7PM • [www.ayresanimalshelter.com](http://www.ayresanimalshelter.com)

**HONEY** - 1 1/2 year old female Black Lab mix, 37 lbs. Knows some commands and is leash trained.

**GUS** - Adult male Yellow Lab mix. Found on Route 10, Palatine on August 13th. Wearing a blue collar when found.

**COMET** - 9 month -1 year old male Pit Bull mix. Found on Division St., Fort Plain on August 11th. A love bug with a fabulous "Pittie" smile!

**TAYA** - 1-2 year old female Lab mix. Knows many commands, including "shake".

**MONTANA** - 2 year old male Pit Bull mix, 46 lbs. Found on Old Fort Plain Road, Canajoharie in October 2012. Not good with cats. Fine with older kids.

## Hot tips to help you save energy and money

(NAPSA) — If your heating and cooling bills seem to be going through the roof, give a warm welcome to these hints to help you keep more of your cold cash.

- Check and maintain your insulation. Improperly insulat-

ed walls, floors, attics, basements and crawl spaces drain away heat and air-conditioning and can encourage mold and mildew.

For more information, visit [www.hvacradvice.com](http://www.hvacradvice.com) or call 877-420-NATE.

# Antiques & Auctions Collecting

by Larry Cox

## Sterling flatware

**Q:** I have inherited a set of sterling flatware in the Acorn pattern. When was it made, and should I keep it? — Lorene, Lavaca, AR

**A:** Your flatware was crafted by Georg Jensen, who opened his first silver shop in Copenhagen, Denmark, in about 1904. A later company opened in the United States in 1941 and ceased operations about a decade later. Your particular pattern was introduced

in 1915.

Typical prices per piece include a table fork, \$180; a fruit spoon, \$130; a teaspoon, \$80; and a luncheon knife, \$140.

**Q:** I have a complete run of National Geographic magazines from 1983 through the present. I would like to sell them, but have no idea of what they're worth. — Charlie, Stigler, OK

**A:** In two words, not much.

The National Geographic magazine was a handsome publica-

tion, but it has never been popular with collectors. I suspect your back issues are

worth in the \$1 to \$3 range each.

# Calendar of Events

ed woodcrafts, furniture, plants, floral arrangements & wreaths, unique paintings on stone or slate and so much more. Plus a wide array of food products. On Internet at [www.fortklockrestoration.com](http://www.fortklockrestoration.com)

**SEP 7, OCT 5,  
NOV 2 & DEC 7**

**Acoustic Coffee House**  
Fultonville Methodist Church, Montgomery St., Fultonville, NY. 6:30-10 pm. Now into our 4th year, the no admission, no donation Acoustic Coffee House is open to

all types of music as long as no vulgarity, doesn't offend anybody and is acoustic. If you can't make it at 6:30, that's OK there is a new performer every 9-13 minutes on average. Call 518-853-4964.

**SEP 8**

**Tail Gate Swap Meet**  
Canajoharie Forest Fish & Game Club. Set up is at 6 am for vendors at a cost of \$15. Open to the public at 9 am at a cost of \$3/person. Kitchen will be open all day.

**SEP 14**

**Class of 1963  
50th Class Reunion -  
All Classes and  
Teachers of the 1960's**  
Knights Inn, Albany St., Little Falls, NY. 5:30 pm. For more information contact Donna O'Rourke at [dor1227@comcast.net](mailto:dor1227@comcast.net) or call Barb Cooley at 315-823-4162 and leave a message.

**SEP 14**

**Volunteers  
to Showcase  
Refurbished Building  
at Open House**

Former Root Town Hall, Flat Creek, NY. Beginning a new life as home of the Root Historical Society. Society members will host an open house with food, music and exhibits. Originally built as a church in the 1860's the simple wooden structure served

the community as grange hall, temperance society meeting house, dance hall and most recently as the town hall of Root in Montgomery County. For additional information contact Albert F Sakowicz, 518-673-3-2923 [abbeyafs@aol.com](mailto:abbeyafs@aol.com)

**SEP 16**

**Monthly Meeting  
of the Salisbury  
Historical Society**  
1805 Frisbie House. 6:30 pm.

**SEP 28**

**Warren Arts  
and Crafts Show**  
Jordanville Federated Church. 9 am - 3 pm. Local artists, crafts, authors and vendors. For questions, contact Carilyn 315-858-0899. Sponsored the Town of Warren Historical Society

# Dollars and sense

by David Uffington

**Car maintenance**

• Oil changes — The 3,000-mile oil change is history for newer cars. You'll save money by changing it every 7,500 to 10,000 miles (check your owner's manual). Use an independ-

ent garage, since dealers tend to be expensive. If you're not sure you're going to a reputable one, mark your old oil filter and check to be sure it has been changed.

# Picking up fruits and other September gardening tips

by **Charlie Nardozi, Horticulturist and Leonard Perry, UVM Extension Horticulturist**

Cleaning up fallen fruits, sowing cover crops, and harvesting winter squash are some of the gardening activities for this month.

To reduce problems with apple maggots, codling moths and plum curculios next season, pick up and destroy fallen apples. Gather dropped peaches to help control plum curculios and brown rot on those trees next summer.

Begin your garden cleanup by pulling up by-gone bean and pea plantings, and other vines and plants that have finished producing crops and may be dying back already. Chop these plant parts into smaller pieces so they'll compost properly and easily. Then, layer any succulent green material with "brown" material such as dried leaves or straw in the compost pile. The composting process may be speeded up by sprinkling a handful of nitrogen fertilizer every few layers.

As areas of the vegetable garden become empty, sow cover crops. Annual rye grows quickly and can be planted late into the season. It usually dies over the winter, but still provides some protection from soil erosion. Winter wheat and rye planted as late as October will also grow until the ground freezes. It survives the winter and is tilled under in early spring.

Pick your winter squashes when they have fully developed the color for their particular variety, when the rind is hard enough that you can't dent it with

a fingernail, and when the stem turns hard and begins to shrivel. Cut squashes from the vine, leaving 2 inches of stem.

Keep leaves raked from lawns so they don't smother the grass. Spread a thin topping of compost on the lawn after you rake up leaves, and rake again to settle the compost.

Leaf mold is made sim-

organisms.

Early fall is a prime time for fertilizing the lawn. The grass is growing, but weeds aren't, so they won't compete for the nutrients. To minimize pollution of waterways, consider having a soil test done first. If it shows that levels of phosphorus (P) and/or potassium (K) are adequate, choose a fertilizer that

and is a great time to visit local orchards or farm stands. Whether you pick your own or buy apples, if storing, do so properly for longest life. A cool, humid place such as a root cellar or cool area in a basement is ideal. Cover fruit with a moist burlap cloth to keep up the humidity and prevent shrinkage. Don't store apples with other fruits or vegetables because apples give off ethylene gas — a ripening agent that causes other fruits to spoil.

Other activities for this month include replacing those spent annual flowers with fall mums or or-

namental kale, and sowing late crops of Swiss chard, spinach, or lettuce.

ply by piling fallen leaves inside a circle of wire fencing. Because fall leaves are low in nitrogen, decomposition will take place slowly over a period of six months to two years. Leaf mold is a great soil amendment, helping to increase water retention, improve soil structure and provide habitat for beneficial soil

contains nitrogen (N), and little or no P or K. In some areas, using phosphorus is illegal unless a soil test calls for it. If you're using an organic fertilizer, it needs warm soil for microbial activity to release the nutrients, so apply it early in the month.

September begins apple picking in most areas,

## Today's performance parts kick your car into gear and save gas

(NAPSI) — How many times have you tried to accelerate onto a freeway with cars zipping by and couldn't get the power to do it safely? It's kind of

and the super-slow-going uphill quickly turns the trip downhill. It's kind of frustrating, right? The problem isn't your driving. Most likely,

car nut, watch "Pimp My Ride" reruns religiously or have a "Fast & Furious" tattoo to know your vehicle is underpowered. All you need to do is step

The right accessories can make your car safer, more efficient and more fun to drive.

scary, right? Or how about when the van's filled with kids you're taking to a soccer game

it's something lacking from what you're driving: automotive performance. You don't have to be a

on the gas and wait and wait...and worry. For the automotive novice, Peter

MacGillivray, vice president of events and communication for the Specialty Equipment Market Association (SEMA) offered some performance upgrade suggestions:

- Breathe easy: Like a human body, a car's engine needs air to run better (and faster). A variety of products, ranging from performance air filters to air intake systems, will make your car breathe easier, and the extra airflow will translate to more horsepower and better gas mileage.

- Keep cool: We've all seen overheated cars on the side of the road, hood up, steam pouring out and frustration boiling over. In short, the biggest performance killer is heat, so let cooler engines prevail. To make sure the heat's not on, there are a number of cooling performance upgrades such as thermostats, cold-air intakes, intercoolers and automotive cooling fans.

- Sound off: Performance exhaust systems and sporty mufflers boost horsepower and can improve gas mileage. But wait, there's more: They sound so cool. Dropping the kids off at school and watching their friends do a double take when your engine growls: priceless.

- Chip in: Used to be a big, bad gas-guzzling engine was the key to power. Today, a small performance chip can do the same, sans the fuel consumption. Consider it a computer upgrade for your car that will bring better engine efficiency, which will allow you to do things like accelerate faster, pass quicker and tow more without burning extra fuel.

- A real kick: As mentioned, forcing more air into an engine creates more horsepower. The air force will really be with you with a turbocharger or supercharger. These are big-

time fun boosters with acceleration aplenty.

- Take a seat: OK, a race-style performance seat won't make your car go faster, but they are supercomfy and will make you look and feel like Speed Racer.

- Rubber hits the road: Tires are, unfortunately, mostly overlooked, but they are the only part of a vehicle that touches the road. If you're upgrading your car's performance, supersticky rubber should be considered. The correct set of tires will provide more grip for sharper road handling and braking. Also, keeping them properly inflated will get you better gas mileage.

"Performance products are very mainstream and easy to buy and get installed," says MacGillivray. "They are readily available from local auto parts stores, mass retailers, car dealerships and, of course, online."

## Ten reasons why buying a new car might be cheaper than you think

(BPT) — Are you driving around in a car that's a decade or more old? If so, you're not alone. The number of older vehicles on the road in the United States has increased by more than 17 million since 2009, according to

Experian Automotive. The average age of the more than 245 million vehicles on U.S. roads is up to a nationwide-high of 11 years old.

As your car ages and the miles pile up, it's important to consider your

options before you're left on the side of the road wondering why you didn't upgrade sooner. While buying a new car might seem like the pricier way to go, just think of the costs you pay to keep your old car running —

constant trips to the shop for repairs can certainly start to add up and often come without warning.

But buying a new car these days doesn't have to break the bank, either. With new safety features including crash avoidance technology and anti-theft systems, you can actually save some money in the long run, especially when it comes to insurance coverage.

Here are 10 increasingly common new-car features that could help reduce your insurance premiums. Some include specific insurance discounts, while others simply lower the overall cost of insurance because of their positive effect on reducing crashes or thefts.

1. Air bags
2. Anti-lock brakes
3. Passive restraint systems
4. Alarm systems/anti-theft devices
5. Automatic vehicle disabling devices
6. Back-up cameras
7. Electronic stability

control

8. Automatic braking systems

9. Intelligent cruise control

10. Lane departure warning systems

Because discounts vary by state and coverage, you'll want to talk to your insurance agent. Also, some of these discounts

a good idea to double check to make sure you're getting all the discounts you deserve.

So if you think it might be time to spend money on an upgrade, remember which features could not only make you safer, but also save you money on your insurance premiums. You might be able
